demat mode, (2) Members (other than individuals holding shares of the Company in demat mode) and Members holding shares of the Company in physical mode, and (3) Members who have not registered their e-mail address are provided hereinbelow:

GENERAL INFORMATION AND INSTRUCTIONS RELATING TO E-VOTING:

- (i) The voting period begins on **Sunday, 24th August, 2025 (9:00 AM IST) and ends on Tuesday, 26th August, 2025 (5:00 PM IST)** During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of **20th August, 2025** may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.
- (iii) Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.
- (iv) In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

The Board of Directors recommends the resolution for the approval of the members as special resolution.

ITEM NO. 6:

Mr. Kuldeep Narain Gupta (DIN:02315331) was appointed as an Independent Director of the Company for a term of five (5) consecutive years, commencing from 28th of September 2021, and his present term is due to expire on 27th September 2026.

In terms of Regulation 17(1A) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, effective from April 1, 2019, no listed entity shall continue the directorship of a non-executive director who has attained the age of seventy-five (75) years, unless a special resolution is passed by the shareholders to that effect, and the explanatory statement to the notice includes the justification for such continuation.

Mr. Kuldeep Narain Gupta shall attain the age of 75 years in March 2026, prior to the expiry of his current term. The Board of Directors, at its meeting held on 26th Day Of July, 2025, on the recommendation of the Nomination and Remuneration Committee, has considered and recommended the continuation of Mr. Kuldeep Narain Gupta directorship up to the completion of his existing term ending on 27th September 2026, in recognition of his extensive experience and valuable contributions.

Mr. Kuldeep Narain Gupta holds a Diploma (Institute of Technology) from Indo-Swiss Training Centre, Chandigarh, a B.Sc. in Engineering, and an MBA from Camden University, USA. He possesses over 43 years of rich and diverse experience in the automotive and engineering industries, having held leadership and senior management positions in reputed organizations such as Eicher, Minda Industries, and Lumax Industries.

Throughout his tenure as an Independent Director, Mr. Kuldeep Narain Gupta has provided valuable guidance, independent

oversight, and strategic input in various matters related to the Company's business and governance. He continues to meet the criteria of independence as prescribed under Section 149(6) of the Companies Act, 2013 and Regulation 16 of SEBI LODR Regulations.

Accordingly, in compliance with Regulation 17(1A) of SEBI LODR, the Board recommends the continuation of Mr. Kuldeep Narain Gupta as an Independent Director beyond the age of 75 years, up to the expiry of his current term, i.e., 27th September 2026.

Validity of Shareholders' Approval:

As per SEBI Circular No. SEBI/HO/CFD/CMD1/CIR/P/2022/47 dated April 8, 2022, the shareholders' approval obtained in an Annual General Meeting (AGM) shall be valid till the date of the next AGM or for a period not exceeding fifteen months from the date of this AGM, whichever is earlier.

No Director, Key Managerial Personnel or their relatives, except Mr. Rajiv Aggarwal, Joint Managing Director and Mr. Vijay Aggarwal, Managing Director being relative of Mr. Vinod Aggarwal, Director of Globe Precision Industries Pvt. Ltd. are directly or indirectly concerned or interested in the above resolution except to the extent of their shareholding (including his relatives), if any, in the Company.

The Board recommends the resolution for approval of the members as an **Ordinary Resolution**

ITEM NO. 10:

As per the provisions of Section 180(1)(c) of the Companies Act, 2013, the Board of Directors of a company shall not borrow money, where the money to be borrowed together with the money already borrowed by the Company (apart from temporary loans obtained from the Company's bankers in the ordinary course of business), exceeds the aggregate of its paid-up share capital, free reserves and securities premium, without the consent of the members of the Company by way of a special resolution.

Considering the Company's current and future fund requirements for capital expenditure, expansion plans, working capital requirements, refinancing of existing borrowings, and other general corporate purposes, the Board considers it necessary to enhance the borrowing powers of the Company.

Accordingly, the approval of the shareholders is sought to authorise the Board to borrow funds (excluding temporary loans obtained from the Company's bankers in the ordinary course of business) up to an aggregate limit of Rs. 300 Crores (Rupees Three Hundred Crores only), over and above the aggregate of the paid-up share capital, free reserves, and securities premium of the Company.

The Board recommends the resolution for approval of the members as a **Special Resolution**.

None of the Directors, Key Managerial Personnel of the Company or their respective relatives are in any way, concerned or interested, financially or otherwise, in the proposed resolution.

ITEM NO. 11:

The Board of Directors of the Company proposes to obtain approval of the members pursuant to the provisions of Section 180(1)(a) of the Companies Act, 2013, which mandates that the Board of Directors shall not, without the consent of the shareholders by way of a special resolution, sell, lease or otherwise dispose of the whole or substantially the whole of the undertaking(s) of the Company.

The Company, being a manufacturing company, may from time to time be required to create charges, mortgages, pledges, or other security interests over its movable and/or immovable assets and properties, both present and future, in favour of financial institutions, banks, or other lending agencies, as security for borrowings availed or to be availed by the Company or any third party, including group companies or subsidiaries, up to a limit of Rs. 300 crores.

Additionally, in line with its business needs and operational requirements, the Company may also need flexibility to sell, transfer or otherwise dispose of certain assets, properties or undertakings, whether or not constituting the whole or substantially the whole of the undertaking of the Company, for business restructuring, asset monetization, operational efficiency or other strategic purposes, in such manner and on such terms and conditions as may be deemed appropriate by the Board.

Approval of shareholders is therefore being sought to enable the Board of Directors to undertake such transactions, as and when required, in compliance with Section 180(1)(a) of the Companies Act, 2013.

As per Regulation 24(6) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, no company shall dispose of or sell any undertaking or substantially the whole of the undertaking without the prior approval of the shareholders by way of a special resolution. The proposed resolution is accordingly in compliance with the said Regulation.

The Board recommends the resolution for approval of the shareholders as a **Special Resolution**.

None of the Directors, Key Managerial Personnel or their relatives are in any way concerned or interested, financially or otherwise, in the proposed resolution.

ITEM NO. 12:

ANNEXURE- H

Management Discussion and Analysis Report

Him Teknoforge Limited is a leading name in the manufacture of Automotive and Agri components for domestic as well as international markets. With consistent commitment to superior quality and on the strength of robust performance of its products, Him Teknoforge Limited has earned national and international acclaim and appreciation.

Our products include transmission gears, Bevel Gears and kits Pins, axles, shafts, propeller shaft components, non-gears component, fork-lift parts, off-highway equipment parts and many products for the engineering industry.

Global Outlook

Looking ahead, the global macroeconomic landscape remains cautiously stable in FY 2025-26, with moderate growth projected and inflationary pressures showing signs of sustained decline. Central banks are likely to maintain elevated interest rates in the near term to solidify disinflation gains, which may keep global credit conditions tight. Despite these pressures, several sectors—including automotive manufacturing and agri-mechanisation—are positioned for steady expansion.

For OEM automotive suppliers, the emphasis continues to shift toward regionalized supply chains, EV transition, and next-gen materials. The global automotive industry is recovering from supply chain disruptions, and as new vehicle platforms evolve, demand is rising for lightweight, precision-engineered, and emission-compliant components. Suppliers with strong capabilities in forged and machined parts, especially for engine, transmission, and axle assemblies, are expected to benefit from this shift.

The agriculture equipment market globally is experiencing greater mechanization, with increased tractor penetration, digitized monitoring, and fuel-efficient components gaining traction. As farm sizes remain small in India and many developing countries, the demand for compact, reliable, and durable tractor components—such as gear assemblies, rear axles, and hydraulics—remains strong.

At the same time, the commercial vehicle (CV) segment is showing a cyclical upswing, both in domestic and export markets. With renewed government spending on infrastructure, mining, and logistics efficiency, demand for medium and heavy commercial vehicles (M&HCVs) is expected to grow in double digits in FY 2025-26. This opens strong growth avenues for drivetrain Components, gear systems, brake assemblies, and high-strength forged components.

Indian Economy and Industry Trends

India's economy is projected to grow at 6.5%–6.8% in FY 2025-26, maintaining its position as the fastest-growing major economy. The growth momentum is being supported by robust domestic consumption, easing inflation, and continued capital expenditure by the government. As the economy matures, the contribution of the manufacturing sector—especially automotive, industrial machinery, and transport—continues to deepen.

OEM Automotive Components

The Indian automotive industry is expected to witness multi-segment growth across two-wheelers, passenger vehicles, and commercial vehicles. Component suppliers catering to OEMs are seeing higher offtake as new vehicle models prioritise fuel efficiency, regulatory compliance (BS-VI phase 2), and improved durability. Localization of components has received a push from government schemes, and manufacturers with precision engineering capabilities are increasingly being integrated into domestic and global supply chains.

The automotive component industry is projected to grow at 7-9% CAGR over the next three years, with increased traction in EV and hybrid segments. Opportunities are particularly strong in gear systems, transmission housings, and high-tolerance machined components—especially for Tier 1 OEM suppliers.

Agricultural Automotive Products

The outlook for tractor and agri-machinery components remains positive. With an above-normal monsoon forecast and increased rural allocation in the Union Budget, tractor demand is expected to remain resilient. Key drivers include:

- Rising rural mechanization across Tier 2 and Tier 3 towns
- Strong Rabi crop output and allied income
- Government schemes such as PM-KUSUM, Agri Infra Fund, and subsidies on farm equipment

Tractor sales are expected to grow at 6-8% in FY 2025-26, with corresponding demand for gearboxes, differential components, engine parts, and precision-forged assemblies.

Commercial Vehicle Segment

The CV sector, particularly the M&HCV category, is expected to grow at 02-03% in FY 2025-26, after a Moderate recovery in FY 2024-25. This growth is being driven by:

- Government capex in roads, logistics parks, railways, and smart cities
- Higher freight movement due to e-commerce and industrial demand
- Renewed replacement demand from fleet operators

Fleet modernization efforts and emission regulation enforcement (BS-VI Phase 2) are prompting OEMs to enhance performance and emission systems, leading to greater demand for precision-forged gears, transmission parts, crankshafts, and axles. With India becoming a growing hub for CV exports to Africa, South-East Asia, and the Middle East, component suppliers also stand to benefit from expanded export volumes.

The convergence of strong domestic demand, policy-driven capital investment, and sectoral growth in automotive, agri-equipment, and commercial vehicles offers a significant opportunity for companies in the OEM parts and forging ecosystem. With sound fiscal policy, easing inflation, and positive rural-agri dynamics, India's growth trajectory in FY 2025-26 is not just broad-based, but also strategically aligned with the needs of the manufacturing and mobility sectors.

Companies with engineering depth, manufacturing scale, and the agility to adapt to evolving platform requirements are well positioned to leverage this momentum across multiple product verticals—from tractor components to drivetrain assemblies for commercial vehicles.

Opportunity and Threats

Opportunity

- **Commercial Vehicle Replacement and Demand Surge**

India's commercial vehicle (CV) sector, particularly in the medium and heavy commercial vehicle (M&HCV) category, is expected to witness Sustained demand vehicles by an ageing fleet and increased freight movement. This presents an opportunity for company to supply drivetrain components, axles, and forged transmission parts to OEMs.

- **Expansion of the CV Market and Infrastructure Push**

Continued government investment in roads, logistics parks, mining, and industrial corridors is expected to sustain mild growth in CV demand. Hence, the demand for heavy-duty, precision-engineered components—an area where Company is well-Positioned, is expected to be a little better than last year.

- **Agriculture Mechanisation and Rural Growth**

Increasing rural mechanisation, favourable monsoon predictions, and government support for farm productivity are fuelling demand for tractors and farm equipment. This benefits the company's agricultural product line, including transmission gears, rear axles, and precision-forged tractor parts.

- **Rising Export Potential and Localisation Incentives**

Global supply chain realignments, coupled with the Indian government's "Make in India" and Production-Linked Incentive (PLI) schemes, are promoting localisation and increasing the export viability of Indian auto components. Company can capitalise by expanding its international customer base and export Portfolio. Company is also very well-positioned for allied sectors of the automotive industry, such as off-highway and material handling equipment, as company has focused its efforts in the last two years to develop components for its new export customers.

- **Transition to EVs and New Powertrains in CVs**

With electric commercial vehicles gaining ground, especially in urban logistics and intercity transport, there is a growing demand for lightweight, efficient components compatible with EV platforms. This provides scope for the company to diversify into forged and machined parts for e-axles, motor housings, and integrated drive units.

Threats

- **Volatility in Raw Material Prices**

Fluctuations in steel, aluminum, and energy prices can directly impact production costs and margins. In a competitive market, the ability to pass on these increases may be limited, creating margin pressure.

- **Global Economic Uncertainty and Trade Barriers**

A slowdown in global markets, or imposition of new trade restrictions in key geographies, may impact export orders and delay expansion plans, particularly in Europe and USA.

- **Intensifying Competition**

Entry of global component manufacturers and the expansion of domestic peers could lead to price competition, especially in commoditized product categories. Continuous investment in technology and quality is necessary to stay competitive.

- **Transition Risk from ICE to EV**

While electrification is still gradual in commercial and agricultural vehicles, the possible long-term decline in internal combustion engine (ICE) demand could impact certain product lines such as engine gears, crankshafts, and related components.

- **Operational Challenges and Capital Intensity**

Rising compliance requirements, need for continuous capex in automation and machining technology, and managing multi-location operations add complexity and cost. Any misalignment in capacity planning or underutilization can adversely affect profitability.

Segment-wise or products-wise performance

The operations of the Company are focused towards automotive and allied components.

Business Operations

The Company has fully functional units located in Vadodra- Gujarat, Baddi- Himachal Pradesh and Pithampur - Madhya Pradesh.

While it continues with its legacy of operational efficiency, factors such as technological advancements and product innovation continue to be its key drivers of differentiation. Enhanced productivity through retrofitting and refurbishing of machines and optimizing efficiencies at various levels has enabled the Company to achieve an improved performance and gain a competitive edge.

Resource Upgradation

The Company has undertaken retrofitting and reconditioning of older conventional machinery, resulting in significant improvements in operational efficiency and a substantial enhancement in throughput. In addition, targeted investments have been made to replace select machines with state-of-the-art alternatives, thereby boosting productivity and minimizing downtime. Furthermore, the Company is in the final stages of establishing a new press project at its Pithampur facility in Madhya Pradesh. This project involves a capital expenditure of approximately ₹52 crore, funded through a mix of equity and debt, and is expected to commence production in the fourth quarter of the current financial year.

Technology Upgradation

The Company has undertaken several initiatives to upgrade its technological infrastructure. New-generation machines have been commissioned across critical operations, including gear cutting, forging presses, and heat treatment, resulting in enhanced efficiency and improved output quality. Additionally, the Company has fully digitized employee attendance management and payroll processing across all its units, further strengthening operational effectiveness and administrative transparency.

Outlook

Looking ahead, the Company remains focused on expanding its portfolio of automotive products while strengthening its design, engineering, and manufacturing capabilities. Strategic investments are being directed towards enhancing operational efficiency, supporting product diversification, and developing advanced technical competencies to meet the evolving needs of both domestic and international markets.

A key area of focus is the expansion of export business. The Company is actively pursuing opportunities to increase its presence in global markets by leveraging its core strengths in precision-forged and machined components. In line with this, Him Teknoforge is exploring and establishing partnerships with reputed foreign entities to co-develop high-performance components and assemblies to tap into new geographies and customer segments.

On the manufacturing front, the Company is implementing modern systems and technologies to improve process transparency, quality assurance, and scalability. These advancements are expected to drive cost competitiveness and support long-term growth across target sectors including commercial vehicles, agricultural machinery, and industrial application Company is also in-process to implement Machine 4.0 across all its facilities.

Him Teknoforge continues to maintain a strong reputation among OEMs and industry stakeholders for its reliability,

product quality, and customer-centric approach. The management is confident that with continued improvement in the global and domestic economic environment, and the internal Initiatives that are underway, the Company is well-positioned to realise the full potential of its ongoing investments.

These developments will form a strong foundation for sustainable expansion, greater global integration, and long-term value creation in the years to come.

Risks & Concerns

Him Teknoforge Limited operates in a highly dynamic and competitive environment, both domestically and globally, and is therefore exposed to a range of potential risks that could impact its operations and financial performance. These include fluctuations in raw material prices – particularly steel and energy – which may adversely affect input costs and profitability.

With the Company's increasing focus on exports, foreign exchange volatility and geopolitical or trade disruptions in key international markets present additional challenges.

Furthermore, a significant dependency on a few major OEM customers poses concentration risks, where any changes in procurement strategies or order volumes may have a material impact. The automotive industry is also undergoing a technological shift, especially with the gradual transition from internal combustion engine (ICE)-based vehicles to electric and alternative-fuel platforms. This evolution could reduce the long-term demand for certain traditional components, necessitating continuous innovation and realignment of the Company's product portfolio. In addition, intensifying competition from both domestic and foreign manufacturers, many with advanced automation and global supply chains, can exert pressure on pricing and margins.

Regulatory risks also remain relevant, as any changes in environmental laws, safety standards, or tax policies – either in India or abroad – may affect the cost of compliance and business viability. Lastly, operational risks arising from natural or man-made disruptions, such as supply chain constraints, labour shortages, pandemics, or cybersecurity threats, may interrupt production or delivery schedules.

To mitigate these risks, the Company has implemented a structured and proactive risk management system, which is regularly reviewed and updated. This framework enables the identification, assessment, and mitigation of risks through strategic planning, customer diversification, technological upgrades, and process improvements, thereby ensuring long-term resilience and sustainability.

Internal Control Systems and their adequacy

The Audit of Internal Control Systems is carried out by an independent firm's of Chartered Accountants on a quarterly basis and corrective actions are taken where shortcomings are identified. The Internal Auditors submit their quarterly reports to the Audit Committee. All the fixed assets of the company are physically examined and recorded at regular intervals.

Discussion on financial performance with respect to operational performance

Your Company has achieved Total Turnover of Rs. 40,700.29 Lakhs for the financial year 2024-2025 as against turnover of Rs. 37,342.86 Lakhs in the previous financial year 2023-2024. Further, the Company earned a profit of Rs.975.80 Lakhs in the 2024-2025 as compared to Rs. 711.17 Lakhs in FY 2023-2024.

Material Developments in Human resources/Industrial relations front, including number of people employed

At Him Teknoforge Limited, we regard our human capital as one of our most valuable assets. The Company is committed to fostering a work environment that attracts, develops, and retains high-quality talent. We continuously review and refine our HR policies and practices to align with evolving business needs and employee aspirations. Ongoing efforts are made to enhance the knowledge and skillsets of our workforce through structured training, upskilling programs, and performance development initiatives. As the business environment becomes increasingly dynamic, we remain a learning-oriented organization focused on driving operational excellence and elevating performance standards across all levels. INDEPENDENT AUDITORS' REPORT

To The Members of **HIM TEKNOFORGE LIMITED**

Report on the audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone financial statements of **HIM TEKNOFORGE LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow Statement, the Statement of Changes in Equity for the year ended on that date and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements")

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its profit and total comprehensive income, changes in equity and its cash flow for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the audit of the standalone financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the Key Audit Matters to be communicated in our report

Key Audit Matters	Auditor's Response
Revenue Recognition	
Revenue is one of the Key Profit drivers and is therefore susceptible to misstatement. The timing of such revenue recognition in case of sale of goods is when the control over the same is transferred to the customer, which is mainly upon the delivery.	Our audit procedures with regard to the revenue recognition including substantive test check of sales transactions recorded during the period closer to the year end. Copy of orders, customers contracts, sales invoices and recoveries as per sale orders/contracts etc. and subsequent to the year end inventory reconciliations. The system of valuation of finished goods was also verified and found in order in consonance with the accounting standard(s).

Information Other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprise the information included in the Management Discussion and Analysis, Board's Report including Annexures to the Board's Report, Business Responsibility Report, Corporate Governance and Shareholders' information, but does not include the standalone financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Director's Responsibility for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, cash flows and changes in equity of the Company in accordance with Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability

to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's reporting process.

Auditors' Responsibilities for the audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is high level of assurance, but is not a guarantee that an audit conducted in accordance with the SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decision of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that individually or in aggregate, makes it probable that economic decision of a reasonably knowledgeable user of the standalone financial statement may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our works and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the 'Annexure A', a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow Statement and the Statement of Changes in Equity dealt with by this report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of Companies Act, 2013 read with Companies (Indian Accounting Standard) Rules, 2015 as amended.
 - e) On the basis of the written representations received from the directors, as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Companies Act, 2013.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and

the operating effectiveness of such controls, refer to our separate report in 'Annexure B'. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's Internal financial controls over financial reporting.

- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act. as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 read with schedule V of the Act.

- h) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 as amended, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements - Refer Note No.37 to the standalone financial statements;
- ii. The Company did not have any material foreseeable losses on long term contracts including derivatives contracts;
- iii. There has been no delay in transferring amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv. (a) The Management has represented that, to the best of its knowledge and belief, as disclosed in the Note No 55 to the standalone financial statements, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("intermediaries"), with the understanding, whether recorded in writing or otherwise, that the intermediary shall whether directly or indirectly lend or invest in any other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiary") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (b) The Management has represented that, to the best of its knowledge and belief, as disclosed in Note No 55 to the financial statements, no funds (which are material either individually or in the aggregate) have been received by the Company from any persons or entities, including foreign entities ("Funding Parties") with the understanding, whether recorded in writing or otherwise, that the Company shall whether directly or indirectly lend or invest in any other persons or entities identified in any manner whatsoever by or on behalf of the funding party ("Ultimate Beneficiary") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) as provided under (a) and (b) above contain any material misstatement

- v. The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with section 123 of the Act, as applicable.

- vi. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of accounts for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further during the course of our audit, we did not come across any instance of the audit trail feature being tampered with.

ANNEXURE 'B' TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to standalone financial statements of **HIM TEKNOFORGE LIMITED** ("the Company") as of March 31, 2025 in conjunction with our audit of the Standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to standalone financial statements.

Meaning of Internal Financial Controls over with reference to standalone financial statements

A Company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2025, based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

1 Company Overview

The Company is an existing public limited company incorporated on 27/03/1971 under the provisions of the Indian Companies Act, 1956 and deemed to exist within the purview of the Companies Act, 2013, having its registered office at Village Billanwali, Baddi, Dist. Solan (HP) - 173205. Pursuant to the Order dated 9th January, 2018 of Hon'ble National Company Law Tribunal, Chandigarh Bench, M/s Him Teknoforge Limited is merged with M/s Gujarat Automotive Gears Limited with appointed dated 1st April, 2016 and the name of Gujarat Automotive Gears Limited is changed to Him Teknoforge Limited as per the Scheme of Amalgamation. The Company offers a diverse range of products and services including manufacturing, sales, distribution and marketing of automotive, non-automotive and engineering components like Alloy Steel Forgings, Gears, Shafts, Axles, Assemblies & sub-assemblies, etc.. The equity shares of the Company are listed on BSE Limited ("BSE"). The financial statements are presented in Indian Rupee (₹).

2 Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(A) Basis Of Preparation Of Financial Statement

i) Compliance with Ind AS

The financial statements Complies in all material aspects with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the "Act") and other relevant provisions of the Act and other accounting principles generally accepted in India.

The financial statements were authorized for issue by the Company's Board of Directors on 24th May, 2025

These financial statements are presented in Indian Rupees (INR), which is also the functional currency. All the amounts have been rounded off to the nearest lakhs, unless otherwise mentioned.

ii) Historical cost convention

The Company follows the mercantile system of accounting and recognizes income and expenditure on an accrual basis. The financial statements are prepared under the historical cost convention, except in case of significant uncertainties and except for the following:

- (a) Certain financial assets and liabilities (Including Derivative Instruments) that are measured at fair value;
- (b) Defined benefit plans where plan assets are measured at fair value.
- (c) Investments are measured at fair value.

iii) Current and Non Current Classification.

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current - non-current classification of assets and liabilities.

(B) Use of estimates and judgements

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

(C) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(I) Financial Assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- (a) Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss); and
- (b) Those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

- (a) For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income.
- (b) For investments in debt instruments, this will depend on the business model in which the investment is held.
- (c) For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not measured at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through .

(a) Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other income or other expenses (as applicable). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVTPL): Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other income or other expenses (as applicable) in the period in which it arises. Interest income from these financial assets is included in other income or other expenses, as applicable.

(b) Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has selected to present fair value gains and losses on equity investments in other comprehensive income and there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other income or other expenses, as applicable in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For Trade receivables company provides when there is a significant uncertainty arise for recovery.

(iv) Derecognition of financial assets A financial asset is derecognised only when -

- (a) The Company has transferred the rights to receive cash flows from the financial asset or
- (b) Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(II) Financial Liabilities

(i) Measurement

Financial liabilities are initially recognised at fair value, reduced by transaction costs (in case of financial liability not at fair value through profit or loss), that are directly attributable to the issue of financial liability. After initial recognition, financial liabilities are measured at amortised cost using effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash outflow (including all fees paid, transaction cost, and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. At the time of initial recognition, there is no financial liability irrevocably designated as measured at fair value through profit or loss.

(ii) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

(D) Financial guarantee contracts

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of the amount determined in accordance with Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets and the amount initially recognised less cumulative amortization, where appropriate.

(E) Segment Report

The Company operates in single segment only. The company identifies & monitors Auto Parts as the primary business Segment

(F) Inventories Valuation

- (i) Raw materials, components, stores & spares, packing material, semi-finished goods & finished goods are valued at lower of cost and net realisable value.
- (ii) Cost of Raw Materials, components, stores & spares and packing material is arrived at FIFO and Cost of semi-finished good and finished good comprises, raw materials, direct labour, other direct costs and related production overheads.
- (iii) Scrap is valued at net realisable value.

(G) Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits with banks, other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes outstanding bank overdraft shown within current liabilities in statement of financial balance sheet and which are considered as integral part of company's cash management policy.

(H) Income tax, deferred tax and dividend distribution tax

The Income tax expense or credit for the year is the tax payable on the current year's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current and deferred tax is recognised in the profit and loss except to the extent it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised in equity or other comprehensive income respectively.

(i) Current income tax

Current tax charge is based on taxable profit for the year. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current tax assets and tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and Company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(ii) Deferred tax

Deferred tax is provided using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements at the reporting date. Deferred tax assets are recognised to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilised.

Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets and liabilities are measured based on the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

The carrying amount of deferred tax assets is reviewed at each reporting date and adjusted to reflect changes in probability that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred income tax assets and liabilities are off-set against each other and the resultant net amount is presented in the Balance Sheet, if and only when, (a) the Company has a legally enforceable right to set-off the current income tax assets and liabilities, and (b) the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority.

Minimum Alternate Tax credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

(iii) Tax on Dividend

Company is required to pay/distribute dividend after deducting the applicable withholding income tax as per the extant Income Tax Laws.

(I) Property, plant and equipment

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016 measured as per the previous GAAP and used those carrying value as the deemed cost of the property, plant and equipment.

- (i) Freehold land is carried at historical cost including expenditure that is directly attributable to the acquisition of the land.
- (ii) All other items of property, plant and equipment are stated at cost less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition of the items.
- (iii) Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.
- (iv) Cost of Capital Work in Progress ('CWIP') comprises amount paid towards acquisition of property, plant and equipment outstanding as of each balance sheet date and construction expenditure, other expenditures necessary for the purpose of preparing the CWIP for its intended use and borrowing cost incurred before the qualifying asset is ready for intended use. CWIP is not depreciated until such time as the relevant asset is completed and ready for its intended use.
- (v) Depreciation methods, estimated useful lives and residual value
 - (a) Fixed assets are stated at cost less accumulated depreciation.
 - (b) Depreciation is provided on a pro-rata basis on the straight-line method over the estimated useful lives of the assets which is as prescribed under Schedule II to the Companies Act, 2013. In respect of Plant and Machinery the management has estimated the useful life as forty years for the Plant & Machinery installed at its Forging Units and thirty years for the Plant & Machinery installed at its Machining Units and for Electrical installation the useful life is taken as twenty five years based on internal assessment and independent technical evaluation carried out by the Chartered Engineer. Management believes that the useful lives considered as mentioned herein, best represent the period over which it expects to use these assets. The depreciation charge for each period is recognised in the Statement of Profit and Loss, unless it is included in the carrying amount of any other asset. The useful life, residual value and the depreciation method are reviewed atleast at each financial year end. If the expectations differ from previous estimates, the changes are accounted for prospectively as a change in accounting estimate.
- (vi) Tangible assets which are not ready for their intended use on reporting date are carried as capital work-in-progress.
- (vii) The residual values are not more than 5% of the original cost of the asset.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Estimated useful lives, residual values and depreciation methods are reviewed annually, taking into account commercial and technological obsolescence as well as normal wear and tear and adjusted prospectively, if appropriate.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other expenses or other income as applicable.

(J) Intangible assets

On transition to Ind AS, The Company has elected to continue with the carrying value of all of its intangible assets recognised as at 1 April 2016 measured as per the previous GAAP and used those carrying value as the deemed cost of the intangible assets.

- (i) An intangible asset shall be recognised if, and only if: (a) it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company and (b) the cost of the asset can be measured reliably.
- (ii) Cost of technical know-how and the expenditure incurred on Product Design and Development has been amortized over a period of ten years.
- (iii) Computer software is capitalised where it is expected to provide future enduring economic benefits. Capitalisation costs include licence fees and costs of implementation / system integration services. The costs are capitalised in the year in which the relevant software is implemented for use. The same is amortised over a period of 3 years on straight-line method for the Units at Vadodra and in respect of other units as per the estimated useful life as per Schedule III to the Companies Act, 2013.

(K) Leases

(i) As a lessee

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. The Company's lease asset classes consist primarily of land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether : (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases.

For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases.

Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option. Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

(ii) As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

(L) Revenue Recognition

(I) Ind AS 115 "Revenue from contracts with customers" provides a control-based revenue recognition model and provides a five step application approach to be followed for revenue recognition.

1. Identify the contract(s) with a customer;
2. Identify the performance obligations;
3. Determine the transaction price;
4. Allocate the transaction price to the performance obligations;
5. Recognise revenue when an entity satisfies performance obligation.

Revenue from contracts with customers is recognised when control of goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

a) Sale of Goods

For sale of goods, revenue is recognised when control of the goods has transferred at a point in time i.e when the goods have been delivered to the specific location (delivery). Following delivery, the customer has full discretion over the responsibility, manner of distribution, price to sell the goods and bears the risks of obsolescence and loss in relation to the goods. A receivable is recognised by the Company when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before the payment is due.

b) Contract Balances

Trade receivables:

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e only the passage of time is required before payment of the consideration is due).

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due from the customer. If the company transfers goods or services to the customer, a contract liability is recognised when payment is made or the payment is due (whichever is earlier).

Contract liabilities are recognised as revenue when the Company delivers goods.

c) Cost to obtain a contract

The Company pays sales commission to its selling agents for each contract that they obtain for the Company, The Company has elected to apply the optional practical expedient for costs to obtain a contract which allows the Company to immediate expense sales commission (included in sales promotion expense under other expenses) because the amortisation period of the asset that the Company otherwise would have used is one year or less.

(II) Sales of Services

Revenue from rendering of services is recognized when the performance of agreed contractual task has been completed. The Company recognises income from power generated on accrual basis. However, where the ultimate collection of the same lacks reasonable certainty, revenue recognition is postponed to the extent of uncertainty.

(III) Other Income

(i) Interest Income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

(ii) Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the group, and the amount of the dividend can be measured reliably.

(iii) Export Benefits

In case of sale made by the Company as manufacturer, export benefits arising from Duty Drawback scheme, Rebate of state levies (LOSL), and Rebate of State and Central Taxes and Levies (ROSCTL), are recognised on sale of such goods in accordance with the agreed terms and conditions with customers.

Revenue from exports benefits measured at the fair value of consideration received or receivable net of returns and allowances, cash discount, trade discount and volume rebates.

(M) Employee Benefit

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The group operates the following post-employment schemes:

(a) Defined benefit plan:

Defined benefit obligation plans and other long term benefits – The present value of the obligation under such plans is determined based on an actuarial valuation, using the projected Unit Credit Method. Actuarial gains and losses arising on such valuation are recognized immediately in the statement of profit & loss. In case of gratuity, which is combination of funded plan with the Life Insurance Corporation Of India and unfunded plan, the fair value of the plan assets is reduced from the gross obligation under defined benefit plans to recognize the obligation on net basis. The liability for Earned Leave has been provided as per the Actuarial valuation as at the end of the accounting year.

(b) Defined Contribution plan:

Employees benefits in the form of contribution to Provident Fund managed by Government Authorities, Employees State Insurance Corporation and Labour Welfare Fund are considered as defined contribution plan and the same are recognized as expenses as and when it accrues and is charged in statement of Profit & Loss of the year. Post employment benefits (e.g. gratuity) is recognized as expense based on actuarial valuation at the year end or elsewhere cash accumulation policy of Life Insurance Corporation of India and SBI Life Insurance Company Ltd. has been obtained, the premium paid to the Life Insurance Corporation and SBI Life Insurance Company Ltd. during the year has been treated as an expense.

(N) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. All the foreign exchange gains and losses are presented in the statement of Profit and Loss on a net basis within other expenses or other income as applicable.

(O) Borrowing Cost

- (i) Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

(P) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company; and
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year.

(ii) Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares; and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(Q) Impairment of Assets

Intangible assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(R) Provisions, contingent liabilities and contingent assets

(i) Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss.

(ii) Contingent liabilities:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

(iii) Contingent Assets: Contingent Assets are disclosed, where an inflow of economic benefits is probable.**(S) Investments**

On transition to Ind AS, equity investments are measured at fair value, with value changes recognised in Other Comprehensive Income, except for those mutual fund for which the Company has elected to present the fair value changes in the Statement of Profit and Loss.

(T) Trade receivables

Trade receivables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

(U) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are recognised, initially at fair value, and subsequently measured at amortised cost using effective interest rate method.

(V) Operating Cycle

Based on the nature of products/activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non current.

(W) Foreign Exchange Risk Management Policy

Foreign exchange risk refers to the losses that an international financial transaction may incur due to currency fluctuations. Exchange rate volatility is unpredictable since there are many factors that affect the movement of the exchange rates i.e. economic fundamentals, monetary policy, fiscal policy, global economy, speculation, domestic and foreign political issues, market psychology, being some of them. The exchange rate volatility poses a risk, called foreign exchange risk or currency risk, to business sector, in particular, the importers and exporters or those ones who associate with international businesses. Although businesses cannot control the fluctuation of the exchange rates but they can manage the risk by using proper hedging tools e.g. Forward, Futures, and Options, in order to manage their revenues and costs, assets and liabilities, more efficiently.

The company exports Automotive Components to known customers in the overseas market and take forward booking keeping in view the forward markets. In certain position exports are kept in open position, however, the position is reviewed at regular intervals and decision with regard to the hedge is taken based on situation and factors prevalent at the time. For long term commitments, e.g., forex commitments in the nature of term loans, the company has a policy to completely hedge the total exposure.

(X) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest rupees lakhs, unless otherwise stated as per the requirement of Schedule III (Division II).

(A) Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses the direct risk of default, risk of deterioration of creditworthiness as well as concentration risks. The Company is exposed to credit risk from its operating activities (primarily trade receivables), deposits with banks and loans given.

Credit Risk Management

For financial assets the Company has an investment policy which allows the Company to invest only with counterparties having credit rating equal to or above AAA and AA. The Company reviews the creditworthiness of these counterparties on an ongoing basis. Another source of credit risk at the reporting date is from trade receivables as these are typically unsecured. This credit risk has always been managed through credit approvals, establishing credit limits and continuous monitoring the creditworthiness of customers to whom credit is extended in the normal course of business. The Company estimates the expected credit loss based on past data, available information on public domain and experience. Expected credit losses of financial assets receivable are estimated based on historical data of the Company. The company has provisioning policy for expected credit losses. There is no credit risk in bank deposits which are demand deposits. The creditors risk is minimum in case of entity to whom loan has been given.

(B) Liquidity Risk

The Company's principal sources of liquidity are "cash and cash equivalents" and cash flows that are generated from operations. The Company has outstanding term borrowings. The Company believes that its working capital is sufficient to meet its current as well as long term borrowing repayment requirements. The company has significant high receivables & liquid inventory compared to payable, hence significantly low liquidity risk.

(C) Market risk

Foreign currency risk

The Company significantly operates in domestic market. Though part of the sales is from Exports, however foreign currency risk towards export is insignificant considering the timely realisation thereof.

The Company also imports certain materials the value of which is also not material as compared to value of total raw materials. Currently, Company does not hedge this exposure. Nevertheless, Company may wish to hedge such exposures.
